Professional Summary

Full Stack Developer with 2+ years of experience building enterprise-scale FinTech applications using Angular, Microsoft SQL Server, and Spring Boot. Expertise in developing scalable Angular applications, implementing complex financial business logic, designing and optimizing high-performance SQL stored procedures, and integrating RESTful APIs. Proven ability to deliver business-critical trading and financial solutions, resolve production issues with rapid turnaround, optimize application performance, and collaborate effectively in Agile environments. Possess working knowledge of Spring Boot for backend service integration and API development

Technical Skills

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Angular Material, PrimeNG, NG-ZORRO

Backend: Java, Spring Boot, RESTful APIs, Python

Database: Microsoft SQL Server, Stored Procedures, Query Optimization, Performance Tuning, MySQL

Tools: Git, Azure DevOps, SSMS, Postman, SonarQube, VS Code, GenAI

Concepts: OOP, MVC, Agile/Scrum

Professional Experience

Junior Software Engineer

May 2024 – Present

Geojit Technologies Pvt. Ltd., Kochi

- Developed enterprise FinTech applications using Angular, Spring Boot, and Microsoft SQL Server.
- Designed reusable Angular components for trading, accounts, depository, RMS, and Margin Trading Facility (MTF) modules.
- Integrated REST APIs and implemented end-to-end business workflows.
- Implemented complex financial business logic using Angular and Microsoft SQL Server.
- Developed and optimized complex stored procedures, improving SQL performance by up to 30%.
- Developed stock exchange reporting modules including Institutional Contract Notes, UDiFF, and MTF reports.
- Investigated production issues, performed root cause analysis, and delivered quick fixes with minimal business impact.
- Collaborated with Business Analysts, QA, and DevOps teams in Agile development.

Front End Developer

Jul 2023 – Jan 2024

Jaldee Soft Pvt. Ltd., Thrissur

- Developed responsive Angular applications for healthcare solutions.
- Integrated REST APIs for dynamic data exchange.
- Implemented Patient Management, Messaging, and Attachment modules.

Projects

Spice Back Office Application

Tech Stack: Angular, Spring Boot, Microsoft SQL Server

- Developed and enhanced enterprise back-office modules for Trading, Accounts, Depository, CRD, RMS, and Margin Trading Facility (MTF).
- Designed and developed reusable Angular components, dynamic forms, data tables, pagination, and workflow-based user interfaces.
- Developed and optimized complex SQL Server Stored Procedures, functions, and queries for high-volume financial transaction processing and reporting.
- Integrated RESTful APIs with Angular applications for seamless communication between frontend and backend services.
- Implemented complex financial business rules and validations across Angular and Microsoft SQL Server based on business requirements.
- Developed stock exchange-compliant reports including Institutional Contract Notes, Margin Reports, UDiFF, and MTF reports.
- Optimized database performance by improving SQL query execution and Stored Procedure efficiency.
- Investigated production issues, performed root cause analysis, and delivered quick fixes with minimal business impact.

MyGeojit

Tech Stack: Angular, REST APIs, Microsoft SQL Server

- Developed customer-facing investment and service request modules using Angular.
- Designed responsive UI components and implemented workflow-driven user interactions.
- Integrated REST APIs for portfolio information, account services, and client request management.
- Worked with SQL Server for data retrieval and backend integration supporting business workflows.
- Collaborated with cross-functional teams to deliver scalable and user-friendly financial solutions.

Education

Master of Computer Applications (MCA)	2021–2023
Government Engineering College, Thrissur	
Bachelor of Computer Applications (BCA)	2018–2021
St. Thomas College, Thrissur
